

Schema

Accrual Goal= 600
1 cycle= 21 days

1. Scans will be done at week 12 but treatment should continue until week 24 regardless of progression unless treatment is contraindicated by Section 5.4.
2. Patients will receive protocol therapy until progressive disease, non-protocol therapy, or up to two years, whichever comes first.
3. All patients must be assessed according to AJCC v7 criteria to determine eligibility and stratification for this trial.
