

**Alliance Schema**

1 Cycle = 14 Days

**\*Randomization will be stratified using dynamic allocation on the following stratification factors: location (intrahepatic vs. extrahepatic vs. gall bladder) and stage (locally advanced vs. metastatic).**

Treatment is to continue until disease progression or unacceptable adverse event. Patients will be followed for 5 years or until death, whichever comes first.

**Please refer to the full protocol text for a complete description of the eligibility criteria and treatment plan.**

If the Group credited for enrollment is a non-Alliance Group, then other requirements from the credited Group may apply.
